

ABHAY KUMAR

 Portfolio |  GitHub |  LinkedIn |  Email : abhay799211@gmail.com

SKILLS

- | | |
|---------------------------|--|
| • Languages | C, C++, Python, Java, HTML, CSS |
| • Tools/Frameworks | Git, GitHub, VS Code, Arduino IDE, Blynk |
| • Hardware | Arduino UNO, ESP32, ESP8266 (NodeMCU), Sensors, Embedded Systems |
| • Other | Problem Solving, Teamwork, Communication |
-

EDUCATION

Bachelor of Technology in Electronics & Communication Engineering

2025 – 2029

Galgotias University , Greater Noida

- Relevant Courses: Digital Systems, Programming Fundamentals, Semiconductor Devices, Discrete Mathematics
-

PROJECTS

Smart Blind Stick

Technologies: Arduino UNO, Ultrasonic Sensor, Buzzer

- Implemented obstacle detection using ultrasonic sensors.
- Provides audio/vibration alerts for safer navigation
- Developed a smart navigation stick for visually impaired users.
- Detects obstacles using ultrasonic sensors.
- Provides audio/vibration alerts for safer navigation.

Smart Plant Care System

Technologies: ESP8266, Blynk, Soil Moisture Sensor, DHT22

- Built an IoT-based automatic plant monitoring system.
- Monitors soil moisture, temperature and humidity.
- Automatically controls irrigation and displays live data on Blynk.

Personal Portfolio Website

Technologies: React, TypeScript, HTML, CSS

- Designed and deployed a responsive personal portfolio.
 - Showcases projects, skills and contact information
-

CERTIFICATES

OOPS using C++

GUVI (HCL) | Apr 2026

- Learned OOP concepts including inheritance and polymorphism.

C Programming

GUVI (HCL) | Dec 2025

- Built strong fundamentals of C programming and problem-solving.

Computational Thinking

GUVI (HCL) | Nov 2025

- Developed logical thinking, algorithm design, and structured problem-solving skills.

IT World Essentials – Your Digital Entry Point

L&T EduTech | Jan 2026

- Gained fundamental knowledge of IT concepts, digital technologies, and industry practices

Wind Hybrid Energy Workshop

IEEE IAS x DEECE | Oct 2025

- Participated in a technical workshop on renewable energy systems and hybrid wind energy technologies.

Build for Snap (AR Workshop)

BharatXR x Snap AR | Mar 2026

- Learned the basics of augmented reality development using Snap AR and Lens Studio.
-
